

SPECIFICATION AMENDMENTS

Please amend the title to read as follows:

**SOLVENTBORNE AND ACTIVATED SOLVENTBORNE PAINT PACKS,
AND WATERBORNE COATING COMPOSITIONS CONTAINING THEM**

Please amend the abstract to read as follows:

A pigmented solventborne paint pack which can be made into a waterborne coating composition is provided, which comprises: i) a solution in an organic solvent of polymer having functional groups and hydrophilic groups; and ii) a waterborne pigment dispersion comprising pigment dispersed in water in the presence of a pigment dispersant, the aqueous pigment dispersion itself being in dispersion in the solution of i). Also provided is a solventborne activated paint pack comprising the paint pack described above and further comprising a crosslinker which is dissolved in the organic solvent. Further provided is a waterborne coating composition which comprises a dispersion in an aqueous medium of the solventborne activated paint pack.
